UK COOPERATIVE EXTENSION SERVICE

University of Kentucky – College of Agriculture

DEDICATION

This past spring marked 10 years since the College of Agriculture, Food and Environment launched UK Ag Equine Programs, then called Equine Initiative.

"The UK Ag Equine Programs is honored to have the 2015 Kentucky 4-H State Horse Show dedicated to the program. Individuals involved with the equine-related programs have a long history of supporting the State 4-H horse activities and are privileged to be able to support the next generation of leaders," said Jill Stowe, Director of the UK Ag Equine Programs. "We admire the passion and effort on the part of the 4-H members and their leaders, and the UK Ag Equine Programs will continue to do all it can to support the development of the state's youth."

Many of the faculty and staff involved with the UK Ag Equine Programs have also contributed greatly to the 4-H Horse Program. "The Kentucky 4-H Horse Program would not be what it is without the support of the people in the equine program providing guidance, insight, knowledge and time," said Fernanda Camargo, Equine Extension Specialist. Faculty and staff of the UK Ag Equine Program have devoted countless hours to 4-H which include donating their horses for the judging contest, judging speeches, presentations, arts and crafts, assisting with horse bowl and hippology exams, serving on rule committees, and helping with various aspects of the state 4-H horse show.

"The College of Agriculture is proud of our tradition of providing a great horse experience for 4-Hers. That experience is even richer due to the development of UK Ag Equine Programs," said Nancy Cox, Dean of the UK College of Agriculture.

"The Equine Program at UK allows us to have more experts on campus which in turn enables us to support our superb core of 4-H agents and volunteers, making a great program even greater."

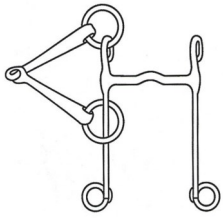

Ten years ago the college set out to radically change how it served Kentucky's signature equine industry when it launched the UK Equine Initiative in 2005 to provide a suite of services appropriate for a land-grant university. At the time, the college housed the Department of Veterinary Science's Gluck Equine Research Center and Veterinary Diagnostic Laboratory and two equine faculty in the Department of Animal and Food Sciences. While there was research, extension and teaching work already being done in equine in the college, there was no undergraduate stand-alone equine major and few horse-tailored extension programs. There was also no real "front door" for the general public to access UK's equine expertise. Much has been accomplished in the last 10 years. The program is distinctive with its strong focus on all three land-grant university missions of teaching, research and extension.

A distinct equine undergraduate Bachelor of Science degree has been in place since the fall of 2007 and has swelled from an initial class of 42 students to 267 students currently in the program, making it the second largest major in the college. There have been 135 graduates to date.

The undergraduate program consists of four emphasis areas in equine science, business, community and leadership development and forages/pasture management. Additionally, seven equine-related clubs and teams are available for students to pursue their equine interests outside the classroom. Those organizations include the Dressage and Eventing Team, Equestrian Team with both hunt seat and western divisions, Horse Racing Club, Polo Team, Research in Equine and Agricultural Disciplines Club, a Rodeo Team and the Saddle Seat Team.

The 4-H Horse Program is proud to be housed in a college that embraces horse science and that is thoroughly committed to the mission of teaching, research, and extension.

Please join the Kentucky 4-H Horse Program in honoring UK Ag Equine Programs and its contributions to the youth of Kentucky at the Dedication Ceremony, Friday, July 10th at approximately 6 pm.
