Your 4-H Dairy Project

This project will help you learn about dairy animals--how to select for good type, and basic feeding, care and management techniques. You will also learn to teach other how to develop an outstanding project.

Primary Objectives of the Dairy Project:

- Become aware of the scope and economics significance of the dairy industry.
- Acquire skills in dairy production through ownership and care of dairy animals.
- Learn marketing, processing, distribution, consumption, and use of dairy products.
- Learn and practice principles of cleanliness and sanitation as applied to the production and care of dairy products.
- Learn the nutritive value of dairy products and promote their use.
- Appreciate contributions and applications of scientific research to the dairy industry.
- Develop sportsmanship, cooperation, decision-making ability, and public speaking skills through participation in demonstrations, tours, judging, and/or exhibits.

General Project Completion Guidelines

- Plan a project experiences using the Project Completion Guide. This should include: (A) Giving a project demonstration, (B) Performing 3 or more activities related to the member's selected dairy project, and (C) Taking part in the Dairy Advancement Program (optional).
- · Have access to a dairy animal.
- Complete a project record book. **Juniors** should maintain a record of their experience within their selected dairy projects. **Seniors** should maintain a record on their project animals as well as a record of their experiences within their selected dairy projects.

Once you've completed your project, you will receive an attractive project completion certificate. Members who complete steps in the 4-H Dairy Advancement Program will receive special recognition. See the 4-H Dairy Member Advancement Program booklet for details.

Note: If you have more than one dairy animal, you may photocopy as many animal identification pages you need to complete your record.

GROWTH RECORD

HEART AT WITHERS

- 1) Measure heart girth and height at withers of your animal at one month intervals.
- 2) Plot numbers on the charts (i.e. if your animal weighs 200 lbs. at two months, and is 40 inches in the heart girth, put a dot where two months and 40 inches meet.
- 3) Use this same procedure through to 18 months and then join the dots using straight lines.
- 4) Use different colored markers when putting more than one animal on a chart.
- 5) This growth record does not need to be completed on every anima;, but once completed a few times, will teach you how to measure growth rate.

DIRECTIONS FOR COMPLETING FEED RECORD

1. POUNDS OF FEED - This value represents the pounds of feed consumed by one animal on the date the feed was weighed, multiplied by the number of days in the months (i.e. 5 lbs. of concentrate mix was consumed on 2-18-86)

5 pounds x 28 days = $\underline{140 \text{ lbs.}}$ of concentrate consumed in February.

- 2. VALUE OF FEED This figure represents the average total value of pounds of feed consumed per animal per month. (i.e. \$2.00 per lb. of concentrate mix) ====> 2 x 140 lbs. = \$280.00
- 3. DATE FEED WEIGHED Select a random day each month to weigh the pounds of the different types of feed consumed by your project animal. Record this date in the appropriate column.
- 4. APPEARANCE OF ANIMAL E = EXCELLENT, G = GOOD, F = FAIR, P = POOR
- 5. YEARLY TOTAL This figure represents the sum of the columns of lbs. of feed consumed per month, and the value of the feed consumed per month.
- 6. PRICES USED PER POUND OF FEED This figure should represent the price per pound of feed used when calculating the value of each feed ingredient (i.e. \$2.00 per pound was the value used in this example).

HALTERS		

Consider depreciation or appreciation of equipment where possible.

Example: A halter costs \$10.00 new and lasts for 10 years at which time it is worn out.

Depreciation per year =
$$\frac{\text{original cost}}{\text{# OF USEFUL YRS.}} = \frac{10.00}{10} = $1.00$$

Subtract \$1.00 for each year the halter is used. A halter which is 5 years old is worth \$5.00.
